Principal's MESSAGE

Dear Students, Parents, Staff, Alumni, and Friends,

As we proudly celebrate 83 years of Kingsway High and Preparatory School - a journey rooted in faith, dedication, and a commitment to nurturing young minds. Founded in 1943 as New Hope College in Kingston and St. Andrew with just 83 students and five teachers, our school has grown into a beacon of Christ-centered education.

A Look Back at Our Heritage

- In 1946, our students successfully completed the Senior Cambridge Examination. Today, our preparatory students are sitting CSEC exams alongside PEP graduating with four CSEC subjects - an achievement of growth and academic excellence.
- In 1961, the school expanded with the acquisition of adjacent premises and the construction of the Preparatory Department under the leadership of Mr. V. H. Percy, who served as Principal for 24 years. We now have a vibrant kindergarten division and are looking forward to establishing a special education unit.

We also remember Miss Eva Williams, whose 31 years of dedicated service left a lasting impact. Today, teachers like Ms. Thorpe and others continue to dedicate themselves daily, shaping the hearts and minds of our students.

A Legacy of Leadership and Service

Since our founding, over 27 principals have guided our journey, each contributing to our mission of integrating faith and learning. We also honor the leadership of past and present Board Chairmen, Education Directors, and committed staff who have navigated challenges with resilience and faith.

As we mourn the passing of Mrs. Lunette a former Education Director and principal. We thank God for her service and remember her legacy with gratitude.

TEACHER Feature

MRS. LUELLA FERGUSON

What made you choose teaching as your super power?

Firstly, I didn't choose teaching as my profession. Teaching chose me. My ultimate profession was to become a lawyer. As I reflect on my journey of 35 years as an Early Childhood teacher I am more convinced that I was chosen by the Master Teacher Himself, the man Christ Jesus. I was called to teach and I would not change it for any other profession. I'm happy that I've taken up the mantle and has aligned my will with God's providential will for my life. The children I have taught over the years are now contributing positively in the world.

What's the favourite thing that students do that makes you smile?

My favourite thing that students do that make me smile is when I see them performing with excellence.

If you could teach any subject just for fun, what would it be?

It would be Mathematics. I personally believe that if Math is taught in a 'fun' way many children who fear Math would not have a fear for it. I usually put fun into Math.

What's one fun fact about you most people don't know?

I love good Music. So, on a Sunday, while doing my chores I would be listening to some 'oldies' songs. It makes my work seem 'lighter'.

What is one piece of advice you would love every student to remember?

That they're special. They are not here by chance. In addition, to be resilient in any situation.

Family FOCUS

Joshua 24:15

***"As for me and my house,
we will serve the Lord."***

Family is one of God's greatest gifts. In busy days it is easy to rush past moments to pray love and listen to one another. God invites families to make Him the center of their home not just on Sabbaths, but every day. When families choose kindness, forgiveness and prayer they build a strong foundation that lasts. Even small acts like praying together before school or sharing a thankful moment at dinner help children grow in faith. Serving the Lord as a family brings peace, unity and joy into the home.

Prayer

Lord help our family to love You and each other. Guide our words, actions and choices each day. Amen.
